

STREAMLIGHT FLASHLIGHTS

Slice the night with high-intensity rechargeables. Precision-engineered professional series of halogens feature push button switches and O-ring sealed construction. AC & DC rechargeable for up to a thousand times, their nickel cadmium energy cells outlast a ton of throway batteries. All lights feature computer-designed reflectors, unbreakable Lexan lenses, versatile charging systems, three position switches. Made in U.S.A.

STREAMLIGHT™ JR. LUXEON™

Cutting-edge Luxeon technology and Internal Reflection Optics make this ultra-compact light super-bright and ultra-convenient.

- Powered by two AA batteries
- 1 watt Luxeon Star 50,000 LED
- 31 lumens typical
- 1.5 hours run time at regulated maximum intensity plus 2 additional hours of declining usable output
- Solid state regulator for max brightness throughout battery life
- Push-button tailcap - steady on and momentary on/off operation
- Shock-resistant/water-resistant
- Includes black nylon flapless holster
- 6.5" long; 3.5 oz.

71500 \$37.95 each

STREAMLIGHT™ STINGER™ 75014

Streamlight's Stinger is designed for use by law enforcement officers. As you might expect for a flashlight intended for this kind of use, it puts out a lot of light-the powerful xenon bi-pin bulb gives you up to 125 lumens. Plus, you can easily customize the beam from spot to flood via the focus mechanism.

As an added bonus, the Stinger is rechargeable, and will give you up to one hour of continuous use from a single charge. The flashlight comes with a 120V AC charge cord, a 12V DC charge cord, two charger holders, and a spare bulb (which is stored onboard in the tail-cap). The Stinger is 7-3/8 inches long and weighs just 10 ounces.

- 75014** \$109.95 each
- 75100 Replacement Wall Charger** \$20.95 each
- 75914 Replacement Bulb** \$4.95 each
- 75175 Replacement Battery Stick** \$21.00 each
- 76090 Deluxe Nylon Holster** \$11.95 each

STREAMLIGHT™ STINGER™ 75813

The Stinger DS LED is the only rechargeable flashlight with fully independent dual switch.

Access any of the three variable lighting modes and strobe via the tail cap or the head-mounted switch. Head switch operates independently from the tail cap switch. The combination of a rechargeable battery and a 50,000 hour lifetime C4 LED results in the lowest operating cost of any flashlight made. Deep-dish parabolic reflector produces a long range targeting beam with optimal peripheral illumination to aid in navigation. Up to 17,000 candela (peak beam intensity) and up to 180 lumens measured system output.

75813 \$139.95 each

STREAMLIGHT™ ULTRASTINGER™ 78014

The Streamlight UltraStinger Flashlight is a high-intensity, super-bright, rechargeable flashlight with a variable spot-to-flood beam and a xenon-halogen bulb that will last up to 30 hours. Featuring a handy, head-mounted, push-button switch for single-handed operation and durable, corrosion-resistant materials, the UltraStinger is ideal for use at home or at work. Machined from solid, aircraft-grade aluminum that's anodized against corrosion inside and out. Featuring a xenon-halogen bulb, this flashlight provides a peak beam intensity of 75,000 candela. At 16.1 ounces and 11-3/4 inches in length, UltraStinger fits easily in your backpack, tool bag, car, and more. It produces up to 295 lumens of light for one hour of continuous use. Because of its powerful output and adjustable focus beam, the UltraStinger is ideal for use in automotive, hardware, law enforcement, security, fire and rescue, industrial, personal, and outdoor applications.

Powered by a 6-volt, nickel-cadmium, five-cell sub-C battery, the UltraStinger will last for up to one hour of continuous use. The nickel-cadmium battery will recharge up to 1,000 times, saving you time and money. Designed for convenience and ease-of-use, the head-mounted, on/off push-button switch can be slightly depressed for the momentary-on position or fully depressed and clicked into place for the constant-on position. The beam can also be adjusted from spot to flood to fit the situation at hand. Features a nonslip surface for increased comfort and grip. And with an unbreakable and scratch-resistant polycarbonate lens to protect the bulb, the UltraStinger is virtually indestructible.

STREAMLIGHT™ SL-20XP™ 25031

Streamlight, the only company to offer an LED/incandescent combination in a full-size flashlight, offers this patented technology in the legendary SL-20XP LED Flashlight. This light-weight flashlight features a high-output, pre-focused halogen main beam and a trio of close-range LEDs, allowing you to choose a super-bright beam or an incredibly long runtime. SL-20XP offers a virtually unbreakable polymer construction, a non-slip rubber comfort grip, an unbreakable polycarbonate lens, and dual switch control. The battery will support a minimum of 1 hour of LED light after the incandescent (main bulb) runs out. Even if the main bulb burns out completely, the Streamlight SL 20 XP LED Flashlight's LEDs have 100,000 hours of life. LEDs provide over 40 hours of continuous use to light a path, tackle paperwork, rummage through an equipment bag, or even navigate a cockpit. The Streamlight SL-20XP LED is 13 1/4-inches long and weighs 1.1 pounds. It uses a high-capacity sub-C nickel-cadmium rechargeable battery can be recharged up to 1000 times on 100V, 120V, 230V, 240V AC or 12V DC. There is a power failure feature. When light is in charger in the on position, it will come on automatically during power failure.

ENERGIZER INDUSTRIAL SAFETY FLASHLIGHT

Make workspaces safe by keeping heavy-duty industrial flashlights at hand. EVEREADY offers a heavy duty rubber flashlight with Krypton bulb, shatterproof lens and one-hand pushbutton switch. This orange safety flashlight is tough enough to be UL/MSHA approved and include a full lifetime warranty. Designed with a ribbed non-slip grip, this light features a large switch with bumpguard, shatterproof lens, and non-conductive hanger ring. All three flashlights require two D-cell batteries.

1259 \$7.50 each

PELICAN SABRELITE™ FLASHLIGHT

This powerful flashlight was designed with one thing in mind: SAFETY. It carries more approvals than any other flashlight on the market today, making it safe for any hazardous environment or condition. The SabreLite is o-ring sealed with a twist-on shroud and comes with a polarity battery guard tray that safeguards against dangerous "outgassing" of hydrogen from an accidentally reversed cell. It is powered by 3 C alkaline cells, submersible, and has an ABS resin body which resists chemicals, corrosion, and extreme temperatures. Unlike ordinary flashlights that produce a yellow beam, the SabreLite's incredibly bright Xenon lamp produces a powerful collimated white beam. Pelican's SabreLite is the leader in quality and performance.

ZIPKA PLUS

Ultra-compact headlamp with retractable cord, 1 high-output LED, 1 red LED and five lighting modes (three continuous and two blinking)

The ultra-compact ZIPKA PLUS headlamp is equipped with the ZIP retractable cord system. This feature allows the headlamp to be worn on the head or wrist, or attached to any other support, like a tent pole, a bicycle seat post, etc. This headlamp integrates two light sources for versatility: one white, high-output LED and one red LED. The white LED delivers 50 lumens in maximum mode and lights up to 35 meters. In economic mode, it can reach a burn-time of 140 hours. The red LED provides lighting to preserve night vision or to become a blinking light for increased safety, for example in an urban environment, etc. The ZIPKA PLUS can be used with lithium batteries to decrease weight or increase performance in cold weather.

E48P \$38.95 each

TIKKA® PLUS 2

Versatile and powerful, the Petzl Tikka Plus2 Headlamp provides hands-free illumination for a range of outdoor and around-the-house activities. Lightweight and comfortable with an adjustable band, the Tikka Plus2 integrates two lights--one white, high-output LED and one red LED. For added convenience, it can be used with lithium batteries to decrease overall weight and improve cold-weather performance. The electronic push-button switch lets you choose between five lighting modes. The Petzl lens optimizes the reach of the beam, which is easy to aim. This headlamp provides dependable performance and features you can count on for use in both backcountry and urban settings. Its light beam is easy to aim, and you can choose among five different lighting modes, so you get the right illumination exactly where you need it. Whether you're camping in the woods, backpacking along a trail, or working on your car in the driveway, the water resistant Tikka Plus2 is the ideal companion. The Tikka Plus2 headlamp integrates two light sources for versatility: one white, high-output LED and one red LED. The white LED delivers 50 lumens in maximum mode and projects up to 35 meters. In economic mode, it can reach a burn-time of 140 hours. In addition, the red LED provides spare lighting to preserve night vision or to become a strobe light for safety use. For emergency or locating purposes, a flashing mode has been added to enhance the security that a headlamp provides. To save you time, the Tikka Plus2 features last-mode memory, which keeps the last mode used in memory until the next use. And to maximize versatility, the Petzl lens optimizes the reach of the beam. Water resistant and built to last, the Tikka Plus2 is compatible with Petzl's ADAPT system (sold separately), which lets you detach the headlamp casing from the headband and attach it to a helmet, backpack, or jacket. It's also very easy to use, thanks to its easy-open battery pack, electronic push-button switch, and battery charge indicator.

GOLIGHT® SEARCHLIGHTS

Bringing more light to you

Whether it's a snowy roadside emergency, a rainy late-night repair or just a moonless night on the lake, power is the first priority in portable lighting. GOLIGHT™'s Cr5 Pentabeam technology applies its powerful 400,000 candlepower light source to a unique beam pattern designed for both close and distant usage. Its powerful center beam projects up to one half mile, while the short range pattern brightens a broad area with consistent light.

Every aspect of the GOLIGHT™ is designed for durability and strength. The highest quality UV materials are implemented into the crack resistant casing to protect them from cracking, warping and discoloration. The vital mechanism of each GOLIGHT™ product is sealed from exposure to rain, snow, and dirt - ensuring that your GOLIGHT™ is ready to weather any storm you can take it through!

GOLIGHT™ RADIORAY WIRELESS SERIES

Wireless remote controlled portable search light. Package includes programmable wireless remote, suction cup and magnetic mount shoes, amber snap-on lens (not included with camo model), and heavy nylon carrying case.

Golight, Inc. is a leading global designer and manufacturer of remote controlled and handheld lighting solutions located in Culbertson, NE. The company has continued to maintain a competitive edge in the searchlight market through significant investment in research and development and through corporate quality planning and technology that anticipates the requirements of future market demands.

As a leading supplier, Golight™ provides products designed for a broad range of applications, including searchlight solutions for the Utility, Telephone and Cable company markets, Marine applications, Recreational Vehicle, Fire and Rescue, Law Enforcement, Military, Automotive, Hunting and Fishing and a variety of specialty markets. The experience that comes with this vast array of applications enables Golight™ to design, develop and manufacture the right solutions for customer requirements.

EUREKA® LANTERNS

MAGIC 185 LED LANTERN

This bright lantern quickly transforms to powerful direction flashlight by rotating top-mounted LED housing. The rippled convex reflector cone disperses light into smooth pattern while in lantern mode. Textured opaque lens directs light in flashlight mode. Easy to use push-button switch is multi-function: high, low, and hold for strobe. The green LED locator light flashes every 5 seconds. The aluminum housing with anodized finish provides extra durability. Includes a carry strap and carabiner-style clip, and swiveling wire hanging loop in bottom of unit. Uses 4 "AA" batteries.

2640010 \$28.95 each

GLIDE 51 LED LANTERN/FLASHLIGHT

The innovative telescopic expanding housing enables transformation from flashlight to area lantern. Collimator efficiently creates a focused penetrating square flashlight beam. Convenient lever-style on/off switch in base. Polymer C-hook in base for hanging. Aluminum housing with anodized finish provides durability. Carry strap and carabiner-style clip included. Uses 3 "AAA" batteries.

2640020 \$22.95 each

SPOTLIGHT 176 LED LANTERN

Two day continuous run time on high makes this a great all-purpose light. Combination clear & opaque lens projects light 360°, while rotating the lens provides spot or area lighting. Multi-function push-button switch for, high, low, hold for strobe, and off. Innovative "smart handle" hangs or stands. Swivel hook included. Uses 3 "C" batteries.

2640035 \$34.99 each

WARRIOR 400 LED LANTERN

Provides bright white area lighting. Remove the diffuser globe to spread soft area light even further. Directional work lights on back: 1 white, 2 red. Multi-function electronic switch high, low, hold for strobe, and off. Rugged ABS housing with rubber grip accent. Hang hook and carabiner included. Rubberized carry handle. Uses 6 "D" batteries.

2640040 \$79.99 each

NITEGUIDE 210 LED TORCH

At 210 lumens this light is 5 xs brighter than a traditional D-cell incandescent flashlight, and LED bulbs never need replacing. Focus Control shifts from 1X Flood to 4X Spot. Option of momentary or constant "ON" setting. Water and Impact Resistant. Aluminum housing is anodized for durability. Features knurled tail cap for secure handling. Uses 2 x 3V CR123A Lithium batteries.

2640050 \$39.95 each

SOS 120 LED TORCH

Produces an SOS emergency flash mode. Powerful square beam is controlled from 1X flood to 4X spot beam with a twist of the knurled head. Dimming control adjusts power from 100% - 10%. Tactical-style tail cap to protect push button. Indents & flats designed into housing for sure grip, even with gloved hands. Aluminum housing with Type II anodized finish for durability. Carry strap included. Uses 3 "AAA" batteries.

2640055 \$39.99 each

NITE GUIDE 160 LED TORCH

This powerful beam is controlled from 1X flood to 4X spot with a twist of the knurled head. The housing incorporates indents and flats for secure handling in all conditions, even with gloves. Aluminum housing with Type II anodized finish provides extreme durability. Tactical-styled tail cap protects the momentary on/off switch. Lanyard included - Requires 1 CR123A battery.

2640060 \$32.99 each

DID YOU KNOW?

When Fred Wardell founded Eureka in 1909, he had a hunch that it would be known for innovative products, so he named his company after an exclamation of great discovery.

"Eureka" is Greek for "I found it" and history credits the Greek physicist Archimedes for making the phrase famous when he took a dip in his tub, discovered the theory of water displacement, and shouted "Eureka!"

FLASHLIGHTS & BATTERIES

LEGEND SERIES FLASHLIGHTS

The Legend series of flashlights are constructed of machined, aircraft-grade aluminum with a tough anodized finish and O-rings throughout for water and shock resistance. Black

Features include:

- Push-button ON/OFF switch
- Spot-to-flood adjustable beam
- Krypton bulb for maximum brightness
- Rubber grips
- Removable head to use as an area light
- Extra bulb in tail cap
